# III. Characterization

# Physical appearance

Winston is six feet tall. He is stockily built, weighing around 200 pounds. He has black hair, brown eyes, and a pockmarked face. He crosses neatly, wears a suit and tie, and appears to be well ground at all times.

# C. Edigefiveress as Party Leader

of the fact that Hall, when he became General Secretary, needed a prominent Negro Party leader to give him support because of his own lack of following among Party Negroes. Since Winston is now an important righte in the national leadership, Hall and other Negro functionaries are obliged to be attentive to and respectful of him.

Hall is apparently resentral that Winston is essential to his continuing Neuro support in the Party and that he must necessarily treat Winston with deference. Mall reportedly would like nothing better than to have Soviet doctors keep Winston in the USSR for an indefinite period of time when he visits that gountry for a made of eneck-up, thereby preventing Winston

Mevertheless, Winston is considered to be an effective and popular Party leader among the membership, white as well as black. He has an engaging personality and is always Smiling or laighing. Because of his pleasant, cooperative demoanor, his rough number and wisecracking, and his lack of temper, he enjoys an easy relationship with people. He seems to like everyone, and his irieadly manner has ingratiated him with the rank and file.

In his rise to the top leadership, Wanston was extremely carcial to faithfully follow the Soviet and the prevailing CPUSA line at all times and to be in tune with the thinking of his

superiors. White located and decisive in decise, he rarely displayed any independence or institutive, but howed to the Party line. He avoided becoming anguily contentious in decise or discussion because he wanted to be on the side of those who counted most in terms of authority and leadership. He worked well with people on equalities, but became firm when issues of moment were at stake and he knew the desires of higher officials. He never the desires of higher authority or standing but went along as a 'good guy."

Winston stays clear of personal intrigue and maneuvering.

In the Party's Negro caure, which is perpetually divided and rife with unending rivalry and backbiting, he strives to play the role of the middleman or the pacifier.

As a speaker, Winston is of the rough-and-tumble type who is a good agitator. He makes an effort to assume a dignified stance on the platform and seldom resorts to exaggerated oratorical antics.

Regives every indication—in speech and in vocabulary—of having had minimal achooling. His extempore language is choppy, disorganized, colloquial, and full of aispronunciation of even simple words. He has virtually no writing skill and is not known to have authored any type of document during his long career in the Party. Speeches, reports, and articles issued under his name are the work of ghost writers.

With is pure demigracy when the administration talks of cutting military spending and of saving the lives of U.S. servicemen. The communicatibelieve that not a cent should be spent on the aggressive war maged thousands of miles away from the shores of our country.

Henry Vincton condemned the campaign of political persecution conducted by the U.S. authorites. I am quite sure, he emphasized, that the forthcoming trial of Angela Davis in California is a political conspiracy. Imetangela Davis a few days ago. After my talk with her I became even more convinced of the political character of this trial. The case of Angela Davis has been framed up by the radialist and anti-communist forces of the State of California.

The Washington DAILY MEWS points out that the 'Peace Comps' program, which costs taxpayers 100 million dollars armually, does not work, and recommends that the administration fird better ways to use these funds.

Official Mashington has in fact acknowledged the failure of the 'Peace Corps' activity. This is evidenced by the White Rouse's decision to perce the Peace Corps with VISTA, so-called corps of teachers.

The activity of such centralized 'volunteer service', in the cpinion of the enite House, may bring greater returns for the invested dollars.

Bit the U.S. press casts serious doubt on the effectiveness of the administration's plans, and not without reason.

The fameless ten-year activity of the Peace Corps' make many in America convinced that no one, except for ideological saboteurs, needs this volunteer' organization.

HENRY WINSTON DESCRIBES U.S. RACIST POLICIES

Moseour Tass International Service in English 0903 OMT 27 Peb 71 1

List: New York Peb 27 TASS=Speaking at the law faculty of the Yale University in sea Haven on Priday, Kational Chairman of the Communist Party of the United States Henry Winston has said that Nixon's policy, Rimed at expansion of the war in Cambodia, Laos and other areas of Indo-China, is actually the racialist policy of American importalism:

Henry Winston has exphasized that the policy of the present-day government of the United States becomes increasingly menacing. Henry Winston said this policy leads to intensification of racism and anticommunism as component parts of the programme, aimed at elimination of the resistance to the governments line.

Current reprisals against civil right fighters are only the beginning of a campaign which was launched with the aim of breaking the resistance of the Regro people. This campaign is now spearheaded against Angela Davis, a symbol of struggle against racism and muticommunism. These reprisals, if they are not duly rebuffed, will tomorrow spread to the whole of the American people, blacks and whites. The struggle in defence of Angela Davis and other political prisoners is, therefore, the matter of honour for all Americans, who cherish freedom and peace.

[Text] New York, Feb 28, TASS--The National Momens Commission of the Communist Party of the USA issued the following statement for International Momens Day:

The victous frameup persecution of Angell Davis by the Nixon-Ignew-Reagan axis is an attack upon the rights of all who struggle for peace, democratic rights and freedom from capitalist exploitation. In addition angela Davis shares the plight of all who would escape the yoke of racist oppression.

RIO DE JANEIRO Sept 5 (LPI) - The Braz in govern-ment bowed today to the demands of a band of very very deter-mined men who kids speed U.S. Ambassalor C. Buske Elbrick and threatened to execute him.

The Foreign Ministry anrounced it would free 13 political prisoners as demanded. The ancouncement came barely an hour and 20 minutes before expiration of an ultimatum that presumably would have meant death for the 61-year-old envoy.

The ambassador was seized by a band of four men on a Rio de Janeiro street Thursday and the kidnappers set a desiline of 48hours for their demands to be met. They repeated the cltimatum, this morning but moved up the deadline for acceptance of their demands 2:30 p.m. 1:30 p/m. EDT today.

The government announcement came at 12:30 p.m. -11:37 a.m. EDT after it received a hand written note from the ambassador to his wife saying that he was alive and well but ask of the government to acceste to what he called overy, very fretermined

He emphasized that reversal of the pulley of the Nixon Administration towards Caba is the only effective answer to achieving new relationships towards Latin America as a whole.

The economic blockade of Cuta not only affects normal trade-(sugar), steel, lobstersot but also) scientific exchange, for examples Winston pointed out.

Doctors are prevented from going to Cuba, exchanging information; from helping to train tech nicians and other dectors, and from using textbooks, he added:

#### By RICHARD GREENLEAF

NEW, YORK, Sept. 5 - Church leaders in the U.S. are still striving to evade the principles setforth in the Black-Manifesto; even though some churches are making payments on the reparations account which the Manifesto holds they owe black Americans.

Such is the situation following this week's action by a convention of the Episcopal-Church, which after two days of heated debute in South Bend, Ind., allocated \$000,000 to the Black Economic Development Conference, the group which promulgated the Manifesto and has been so hing to collect payments on the STO milflion it says the churches owe the

Negro people for centuries of oppression.

The resolution adopted by the Episcopalians included a passage rejecting, the "ideology" of the Marilesto.

The Rev. George M. Murray, Bishop of Alabama, said in the course of the debate: "I cannot vote for a group whose only record, is this manifesto, a violeat. Marxist document."

But the resolution did recognize the Black Economic Development Conference as a movement for "organizing the selfdetermination" of the black com-

The action followed by less then two weeks an address by the Rev.

director of the Interreligious Foundation for Community O:ganization, in which he charged that many churches and synagosues were seeking to avoid doing anything about the Black Manifesto.

Walker was addressing the National Catholic Conference for Interracial Justice, meeting in Los Angeles. IFCO is the group which financed the meeting in Detroit earlier this year at which the BEDC was founded and the Manifesto formulated.

"After all the churches" rhetorie about love, brotherhood and justice," Walker said, "at many points it is flipping-out wheat real proposition is put, acting

like a young lady who knows what to do to get a young man's attention, then falling back on her virtue when the question's popped."

He suggested that recourse might be had to the UN or ar international court of law.

The 1915 Paris Conference he argued, established the validity of reparations being given to individuals rather than to nations.

One of the most fervent pleas made at the Episcopalians' meeting was that of the Rev. Junius F. Carter, Negro rector of Holy Cross Episcopal Church in Pitts burgh.

"I am sick of you," he cried 'You! don't trust me, you don' trust black priests; and you don't trust black people."
